

2021 Funding

9Health:365

9Health:365 School Based Health Clinic Vaccination Initiative

Funding to host vaccination events for children, youth, and caregivers in partnership with School-based Health Clinics and The Salvation Army. Together, they are seeking to advance health equity through COVID-19 outreach, education, and vaccination events in marginalized and underserved communities throughout Colorado.

\$44,500

A Little Help

A Little Help with COVID-19 Vaccines

Help older adults navigate online portals, coordinate appointments and transportation to and from vaccination appointments, and develop and distribute vaccine education online and via email communications.

Adams, Arapahoe, Denver, Douglas, Eagle, Garfield, Jefferson, Larimer, Pitkin, Weld

\$25,000

Adelante Community Development

JuntosAdelante

Provide outreach, education, appointment navigation and monthly vaccination drives for Spanish-speaking Latino communities living in Adams, Arapahoe, Denver and Weld Counties.

Adams, Arapahoe, Denver, Weld

\$100,000

African Chamber

African Immigrant Vaccine Equity

Provide culturally relevant outreach, education, and connection to vaccination opportunities in African immigrant communities through a coalition of community-based organizations.

Adams, Arapahoe, Denver, Morgan

\$100,000

African Youth Advocate

Clearing Vaccine Fears among African Immigrants

Provide outreach, education and accurate information on the COVID-19 vaccine to fight vaccine fears and false indoctrination of African youth and families and debunk conspiracy theories.

Adams, Arapahoe, Denver, Boulder

\$35,000

Archway Housing and Services Inc.

Vaccine Outreach, Navigation and Distribution Assistance

Provide education, appointment navigation, transportation assistance and other supportive resources to assist affordable housing residents in accessing the vaccine through community-based opportunities.

Adams, Arapahoe, El Paso, Jefferson

\$50,000

Atlas Preparatory School

Atlas Equity Vaccination Project

Atlas seeks funding to support an equity vaccination clinic and six additional educational events for low-income students and families living in southeast Colorado Springs. 94% of Atlas families qualify to receive free or reduced lunch and over 90% identify as racial and/or ethnic minorities. We will prioritize our surrounding school community for this event.

El Paso

\$10,000

Aurora Community Connection Family Resource Center

Breaking down barriers to COVID-19 Vaccination

Provide outreach, education and vaccine access activities to Latino and other communities of color, immigrant families, adults with limited English proficiency, people without health insurance, minimum and low-wage workers.

Adams, Arapahoe, Denver, Douglas

\$42,240

Aurora Public Schools

Metro Migrant Education Youth Vaccination Program

Conduct three promotional events in coordination with Denver Metro area vaccination sites, as well as enable migrant families and their youth ages 12 and older to access factual information about receiving the vaccine and transportation to vaccination sites.

Adams, Arapahoe, Douglas, Denver, Broomfield, Boulder

\$14,600

Bayaud Enterprises

Bayaud and ARC Vaccination Clinics

Partner with ARC Thrift Store to provide outreach, education, appointment navigation and support resources to assist people with disabilities and people experiencing homelessness in accessing the vaccine through a series of outdoor vaccination clinics.

Adams, Arapahoe, Denver, Jefferson

\$52,000

Boys & Girls Clubs of the San Luis Valley

Boys and Girls Club of the SLV Pop-up Vaccination Clinic

Host a pop-up vaccination clinic with interpretation, transportation assistance and other support resources for residents in San Luis Valley.

Alamosa, Conejos, Costilla, Rio Grande

\$15,500

Broomfield FISH Food Bank and Family Resource Center

Broomfield EQUITABLE ACCESS/ACCESO EQUITATIVO

Partner with Broomfield County Public Health to create culturally-responsive outreach and ensure equitable access to the COVID-19 vaccine for low-wage workers, those with a disability, refugees, immigrants, seniors on fixed incomes, and those experiencing homelessness.

Broomfield

\$28,500

Brother Jeff's Cultural Center

Addressing COVID-19 Hesitancy and Increasing Vaccine Acceptance in Colorado's Black Community

Increase acceptance and uptake among the Black/African-American community through educational outreach through social and other media, health system navigation assistance, and hosting of vaccination clinics.

Arapahoe, Denver

\$51,000

Center for African American Health

COVID-19 Response & Recovery

Decrease vaccine hesitancy and increase access to the COVID-19 vaccine for Black/African American individuals in metro-Denver and metro-Colorado Springs by leveraging key partnerships and our reputation as a trusted organization.

Adams, Arapahoe, Denver, El Paso

\$75,000

Center for Health Progress

Realizing Vaccine Equity in Fort Morgan and Pueblo

Address vaccine inequities in Fort Morgan and Pueblo through volunteer recruitment & training; targeted vaccine registration & outreach; infrastructure design & support for vaccine clinics; and post-vaccination follow-up.

Morgan, Pueblo

\$80,000

Clinica Colorado

Colorado Safety Net Clinics - Vaccine Equity

Support 10 community-based health care clinics who care for Colorado residents who are uninsured, under-insured and/or publicly insured to provide enhanced access to COVID-19 vaccines through outreach, engagement, transportation, translation services and clinical services.

\$110,000

Colectiva Creando Cambios en Colorado

Red de Respuesta Comunitaria de Promotoras

The main goal of Red de Respuesta Comunitaria de Promotoras [RRCP for its Spanish acronym or Community Response Network of Promoters] is to reinforce community-based programs serving the Latino community and connecting it to COVID-19 vaccines. RRCP shall function as a bridge between the Latino community and our allies.

Adams, Arapahoe, Denver

\$50,000

COLOR

Increasing COVID-19 Vaccine Access for Latinxs

Increase vaccine equity for Latinx community by providing comprehensive programming, including education, messaging, support services and organizing activities to assist community members in accessing the vaccine.

\$80,000

COLOR

Youth of COLOR Educate Young People on Vaccination

Enlist Youth of COLOR fellows to plan and execute activities designed to reach young people across COLOR's geographic footprint and in online spaces with the objective of informing youth about COVID-19 vaccination opportunities and debunking myths surrounding vaccination.

Adams, Arapahoe, Summit, San Miguel, Prowers, Pitkin, Las Animas, Lake, Denver, Boulder

\$22,000

Colorado Alliance for Health Equity and Practice (CAHEP)

Culturally Appropriate Engagement with Communities of Color for COVID-19 Vaccination

This project will utilize culturally-appropriate methods for 'targeted outreach' to immigrant and communities of color. Disparities are emerging for people of color and so a more focused effort is necessary. This project will contribute to increasing the number of people vaccinated in these target populations by raising awareness, building trust, and supporting equitable vaccine delivery events. Underserved communities experiencing discrimination and misinformation about the COVID-19 vaccine.

Adams, Arapahoe, Boulder, Broomfield, Denver, El Paso, Larimer

\$25,000

Colorado Black Health Collaborative

BCHART Community Educators COVID-19 Connections

This project aims to address COVID-19 challenges for Black and Latinx community members through providing BCHART Educator brokering connections. The BCHART educators will be trained to educate these communities, as well as connecting the targeted populations to testing, vaccination and social resources. The project will enhance our existing structures to ensure these populations have trusted connectors getting them to the right resources.

Adams, Arapahoe, Denver

\$60,800

Colorado Cross Disability Coalition

COVID-19 Vaccine Equity for Coloradans with Disabilities

Provide community-specific education and messaging to Coloradans with disabilities and work with community-based partners to ensure equitable access to the COVID-19 vaccine.

\$50,000

Colorado Ethiopian Community

Together We Protect Grant Application

More than 30 thousand Ethiopians in Colorado, also they are the second populated immigrant community next to Latinos. CEC is one of the underserved populations who have a hard time getting Covid-19 vaccine. Most of the CEC are vulnerable to covid pandemics because of the following reasons.

The population are working as service giver like working at the airport, transportation and restaurant.

The Second Groups are working on health area workers, hospital, assistance living and rehab.

Arapahoe, Denver

\$10,000

Colorado Statewide Parent Coalition

Increasing COVID-19 Vaccine Access for FFN Childcare Providers and their Communities

Provide culturally and linguistically relevant programming to informal family, friend and neighbor (FFN) childcare providers and parents to increase vaccine education and eliminate barriers to ensure informal FFN childcare providers have access to the COVID-19 vaccine.

\$75,000

Community Equity Coalition

Vaccine Ambassador Program in Chaffee County, Colorado

The Community Equity Coalition aims to improve equitable access to COVID-19 education and vaccination through a Vaccine Ambassador and media Outreach campaign. With focus residing on the Hispanic/Latinx, LGBTQIA, homeless, and low-wage earning populations with understanding that these groups have been most affected by the COVID-19 pandemic, we hope that reducing barriers and improving access to trusted sources of information will be successful.

Chaffee

\$50,000

Compañeros: Four Corners Immigrant Resource Center

Promote Vaccination of Immigrants in Rural Southwest Colorado

Partner with the San Juan Basin Public Health Department to provide culturally-tailored outreach and systems navigation to help low-income, Spanish-speaking, undocumented immigrants in rural southwest Colorado receive COVID-19 vaccines.

Archuleta, Dolores, La Plata, Montezuma, San Juan

\$25,000

Cultivando

Protegiendo a Nuestros Jóvenes

Provide relevant and resourceful information to the Latinx community to increase vaccination rates among youth ages 12 and older in Adams County and continue outreach and education regarding misconceptions and the importance of having our young adults protected and safe.

Adams

\$15,000

Denver Health Foundation

Increasing Vaccine Access and Education in North Denver School Communities

Denver Health School-Based Health Centers (DSBHCs), in collaboration with Denver Public Schools (DPS), will host COVID-19 Vaccine clinics for eligible youth and their families. We will host clinics at various schools in neighborhoods with low vaccination rates among residents 12-17. This project provides an opportunity for the DSBHC youth engagement team to facilitate a youth lead outreach and education campaign targeting unvaccinated youth and caregivers in each community.

Denver

\$50,000

Denver Indian Center Inc.

DICI Together We Protect Vaccine Equity Request

The Denver Indian Center is submitting a request for \$100,000 for aid in supplies, advertising, and partnerships, to assist with the vaccination of the Native American community. Historical trauma has resulted in a mistrust of western medicine, particularly vaccines, and we feel that with this funding, we will be able to partner with appropriate organizations to help do our part to vaccinate all of Colorado, in an environment that fosters trust.

\$65,000

Denver Indian Family Resource Center

Native American Vaccine Equity

Provide outreach and education on COVID-19 vaccine to American Indian/Alaska Native communities of the Greater Denver Metro Area with a focus on the elder and homeless population.

Adams, Arapahoe, Jefferson, Douglas, Denver

\$55,000

Eagle Valley Community Foundation

Vaccine Equity Via MIRA

Partner with Eagle County Public Health and Vail Health to provide vaccines via the MIRA Bus to Spanish-speaking residents in mobile home and low income neighborhoods in Eagle River Valley and El Jebel/Basalt.

Eagle, Garfield, Pitkin

\$94,430

El Centro Amistad

Latinx Vaccine Equity

Increase vaccination rates among the Latinx community of Boulder County through education and outreach to an underserved community. AMISTAD works to educate the community about COVID-19 and the vaccine and help dispel fears such as deportation and lack of insurance. Weekly podcasts and videos will be made for the community with experts to address questions and concerns from the community. We will provide transportation and translation support at vaccination sites.

Boulder

\$75,000

El Comité de Longmont

El Comité Protects

Identify and support Latino community members who want to get the COVID 19 vaccine through outreach, education, appointment navigation and supportive resources.

Boulder, Broomfield, Larimer, Weld

\$20,193

Every Child Pediatrics

Achieving vaccine equity for youth and families at Every Child Pediatrics

Provide outreach, education, and access to the vaccine through on-site and mobile vaccination clinics for youth and families.

Adams, Jefferson, Denver

\$49,990

Family Resource Center

Reducing Vaccination Barriers and Hesitancy in Rural Northeastern Colorado

Provide education, outreach, transportation assistance, and connection to vaccination opportunities in the rural communities of northeastern Colorado to reduce vaccine barriers and hesitancy.

Yuma, Weld, Washington, Sedgwick, Phillips, Morgan, Logan

\$33,850

Family Resource Center

Teens Reducing Vaccination Barriers and Hesitancy in Rural Northeastern Colorado

Engage teens in Family Resource Center's Youth Programs to work in partnership with community leaders and reduce vaccine barriers and hesitancy by providing education, outreach, transportation assistance, and connection to vaccination opportunities in the rural communities of northeastern Colorado.

Yuma, Weld, Washington, Sedgwick, Phillips, Morgan, Logan

\$22,800

Filipino American Community of Colorado

Grant Application for the Filipino Community of Colorado

Provide outreach to the Filipino and other Asian communities and continue hosting pop-up vaccination clinics in partnership with Jefferson County Public Health.

Arapahoe, Denver, Jefferson

\$25,000

Focus Points Family Resource Center

Youth Vaccine Education and Access in Globeville, Elyria, and Swansea

Provide COVID-19 vaccination education and resources to Latinx, immigrant, and resettled refugee adults and children in Globeville and Elyria-Swansea (GES).

Adams, Denver

\$26,600

Garfield County Public Health

The Vaccine Is For Me: Equitable Access to COVID-19 Vaccines in Garfield County/La vacuna es para mí: acceso equitativo a las vacunas COVID-19 en el condado de Garfield

Work in partnership with trusted community members and organizations to increase vaccination rates among youth ages 12-17 and their caregivers.

Garfield

\$28,000

Grand County Rural Health Network

COVID-19 Vaccine Equity in Grand County

Continue providing outreach, education, scheduling assistance, and transportation supports to ensure more equitable access to and understanding of COVID-19 vaccinations for Grand County residents who are immigrants, people with disabilities, people experiencing homelessness and older adults on low incomes.

Grand

\$30,000

Grand County Rural Health Network

COVID-19 Vaccine Equity for Youth in Grand County

Provide outreach, education, scheduling assistance, and transportation supports to ensure equitable access to and understanding of COVID-19 vaccinations for Grand County youth and caregivers.

Grand

\$25,000

Gunnison County Department of Health and Human Services

Gunnison County Vaccine Equity Effort

Gunnison County Health and Human Services (HHS) is requesting \$35,164 in funding to increase vaccine equity among Gunnison County residents. HHS will aim to increase access to low-income workers, Spanish-speaking individuals, remote communities, and youth. So far, Gunnison County has fully vaccinated around 6,700 individuals of about 17,500 total residents. The goal is to get 12,000 people vaccinated by the end of the summer, around 80% of the county's current eligible population.

Gunnison

\$35,164

Gunnison County Department of Health and Human Services

Gunnison County Vaccine Equity Effort for Children

Improve COVID vaccine access for youth in Gunnison County through support of a Health Navigator, resources to local schools for testing and vaccinating, and working with schools to provide guidance and recommendations for COVID-related activities.

Gunnison

\$32,650

Health District of Northern Larimer County

Overcoming Barriers to Vaccinating our Unhoused Neighbors in Larimer County

Partner with Homeward Alliance and other trusted service providers reaching people experiencing homelessness and those at risk of housing instability in Larimer County through outreach and education to reduce vaccine hesitancy and supportive resources for those receiving COVID-19 vaccinations.

Larimer

\$19,850

Homeward Pikes Peak

Street Outreach Support

The mission of Homeward Pikes Peak (HPP) is simple: move individuals and families from homelessness to safe and stable housing, provide substance abuse treatment and supportive services needed to maintain long-term stability. HPP connects with homeless neighbors through the Street Outreach team. A grant from Together We Protect would fund Street Outreach salaries, production of vaccine information flyers to distribute during outreach, and transportation of clients to COVID-19 vaccine sites.

El Paso

\$25,000

Hope Communities

Vaccine Access Underserved Community Members in the East Colfax Corridor

This is a partnership proposal on behalf eight community-based non-profit organizations to provide education, resources and access to vaccine clinics to those residing in the East Colfax corridor who have been disproportionately affected by COVID-19. As a collaborative group with deep community connections, we are uniquely positioned to reach diverse and vulnerable communities who may face barriers to vaccine access.

Arapahoe, Denver

\$83,275

Hopelight Medical Clinic

Outreach to Vulnerable Populations

Hopelight Medical Clinic is taking a three-pronged approach to vaccinating vulnerable populations. We are targeting the Hispanic community, those individuals with developmental disabilities, and patients who are home-bound. Our goal is to create a series of weekend clinics, along with an educational component that uses a variety of outreach tools. Finally, we have unfulfilled requests for home-bound vaccines that can be completed with the additional resources offered by this grant.

Weld, Larimer, Jefferson, Boulder

\$25,000

Immunize Colorado

TWP Grantee Cohort Learning and Facilitation Services

Design and implement a grantee-informed facilitation strategy to enhance knowledge exchange and collaborative learning among TWP grantees during the monthly meetings; create a resource hub where grantees can easily access materials and contribute content, as well as a communication platform to allow for grantee interactions and ongoing collaboration and knowledge exchange; and draw upon the experiences and insights of the grantees to generate broader learnings and recommendations for practitioners, funders, and decision makers committed to advancing health equity.

\$48,590

Immunize Colorado

COVID-19 Vaccine Sundays

Support for "Vaccine Sunday" outreach efforts to engage with Spanish-speaking immigrants through churches and community-based organizations to promote COVID-19 vaccine acceptance. Engage a trusted community leader to facilitate clinics, in partnership with state contracted vaccine providers to engage Colorado residents who lack documentation or live in mixed status households. Recruit and mobilize youth advocates from churches to address vaccination uptake in 12-18 year olds and support a research project on vaccine acceptance among faith-based people of color.

\$15,000

Inner City Health Center

Together We Protect

Provide education to increase awareness of prevention, health navigation for hard to reach individuals, and offer vaccinations at regularly scheduled times for largely underserved populations.

\$75,000

Integrated Community

Routt County Vaccination Equity clinics

Provide Vaccine Equity clinics targeting the immigrant communities in Routt and Moffat counties.

Moffat, Routt

\$40,000

Jefferson Center

Promoted, Delivered: Vaccination Efforts Targeting Jeffco Youth

Conduct outreach and promotion of the COVID-19 vaccine and host vaccine clinics for eligible-aged youth served internally through the Center's Youth Transitions program and through external partnerships with local health departments, pediatric clinics, primary care clinics, and community groups.

Jefferson, Gilpin, Clear Creek

\$19,950

Kids At Their Best

Vaccinating Morgan County

Morgan County was one of the hardest hit areas, yet community leaders continue to oppose the vaccine. KATB can make the greatest contribution to getting our community vaccinated by focusing on vaccine hesitancy, as well as language, transportation, and sign-up/technology barriers. Our plan is to meet people where are and piggyback education on programming already in place, reaching low-income Latino and Somali immigrants, as well as the white people politically opposed to the vaccine.

Morgan

\$30,000

Kids At Their Best

Addressing Vaccine Hesitancy Among Eastern Plains Youth

Train and support 30 youth leaders to develop a campaign that appeals to their peers and addresses vaccine hesitancy among kids ages 12 and older and families across 9 counties of the Eastern Plains.

Yuma, Washington, Sedgwick, Phillips, Morgan, Logan, Lincoln, Kit Carson, Cheyenne

\$47,800

Kids First Health Care

Fall 2021 Kids First COVID Vaccination Project

Provide education, outreach and COVID-19 vaccines to school-based health center patients ages 12 and up and their families.

Adams

\$42,744

KSUT Public Radio

Minimizing vaccine hesitation amongst Colorado's two Tribal Nations

Implement outreach and engagement through on-air messaging and digital advertising on KSUT Tribal Radio and Four Corners Public Radio to reduce vaccine hesitancy amongst Southern Ute and Ute Mountain Ute tribal members and other members of Southwest Colorado.

Archuleta, La Plata, Montezuma, San Juan

\$12,800

La Cocina

NOCOSeVacuna: La Cocina & Partners Elevate Equity in BIPOC Vaccinations

Support a collaboration between La Cocina, BIPOC Alliance and Fuerza Latina to expand their NOCOSeVacuna initiative and provide outreach, education and support to ensure Latinx immigrant communities in Northern Colorado have equitable access to the COVID-19 vaccine.

Larimer, Weld

\$75,000

La Plata Family Centers Coalition

Vaccination Clinic for Immigrant Populations in Southwest Colorado

Provide a mobile COVID vaccine clinic for immigrant and limited English proficiency (LEP) populations in Southwest Colorado, with outreach, information, appointment assistance and interpretation in Spanish and Nepali.

Archuleta, La Plata

\$10,000

Lake County Build a Generation

Lake County Vaccine Equity Project

Support a county-wide, multi-sector collaborative effort to increase vaccine education and reduce barriers to access for Lake County residents with a focus on the Spanish-speaking immigrant community.

Lake

\$85,000

Land Rights Council, Inc.

Comunidad Unidos

Our program, “Comunidad Unidos” which means United Community in Spanish would develop vaccine ambassadors from the community who reach out to relatives, friends and community members to share their experiences, both with Covid and the vaccine itself. Through the ambassadors we hope to create conversation and provide spaces in the counties to help shift perceptions of the vaccine and encourage community or kinship arguments for getting the vaccine.

Costilla, Conejos

\$31,200

Larimer County Department of Health and Environment

Talking about it! Sharing why you got vaccinated

Support Youth Engagement Specialists to outreach to all youth in the County and encourage those who are vaccinated to have simple conversations with their peers and share with them why they chose to get vaccinated.

Larimer

\$18,500

Las Animas - Huerfano Counties District Health Department

Expanding education, diverse communication and COVID-19 vaccine clinics throughout Las Animas and Huerfano Counties

Las Animas Huerfano Counties District Health Depart. is diligently addressing the COVID-19 pandemic and finding ways to decrease inequities accessing the COVID-19 vaccine. Our vaccine rate in Huerfano County is less than 40% and in Las Animas County is 41.8%. Our approach to decrease some inequities is to expand education and communication outreach and bring our services to all frontier/ rural communities in our region, hosting COVID-19 vaccine pop-up clinics, utilizing our COVID mobile unit.

Las Animas, Huerfano

\$60,000

Living Water Christian Center

Living Water Aurora COVID-19 Vaccination Project

The Project will serve Black and Brown communities, shelters, homeless, and senior facilities in zip codes 80010, 80011, 80012, and 80207. It will create Public Service Announcements (PSAs) in English and Spanish to dispel fear of COVID vaccines and the urgent need for herd immunity. The project will use community churches /organizations to request place ads and PSAs on their social media sites.

Adams

\$45,000

Living Water Christian Center

Youth vaccination push

Host pop-up COVID Vaccination Clinics in Aurora with lunch/transportation/incentives, as well as information/educational seminars (in-person and virtual) to answer questions parents have concerning the vaccine safety and risk. PSAs/flyers/ads will be designed targeting those reluctant to receive the vaccine. Musical entertainers will participate in these events.

Adams, Arapahoe

\$15,000

Mango House

Putting the Immunity in Community: Vaccines for Refugees

Mango House will conduct vaccine access activities in a trusted community space, using an emerging best practice walk-in only model to increase access for those who face the greatest barriers to accessing COVID vaccination. Mango House will target refugees, asylees and residents of the 80010 zip code. Mango House will also conduct an education and will-building campaign, by promoting the vaccine at Mango Houses's 35 refugee-owned businesses, restaurants, and religious communities.

Adams, Arapahoe

\$25,000

Marillac Health

Pester Power, Teens & Vaccines

Implement "Pester Power, Teens & Vaccines" at Central High School, where we'll use hip, creative vaccination messaging directed at teens and designed to get (and keep!) their attention in order to build the kind of rapport necessary for engaging adolescents in vaccine health & overall wellness.

Mesa

\$7,500

Mi Familia Vota Educational Fund

COVID 19 Outreach for the Latinx Community

MFVEF will focus on meeting the community where they live, by tabling at community events and high traffic areas as well as canvassing in dense latino neighborhoods in Aurora and Denver. We will provide accurate and trustworthy information to the community about vaccine appointments and will encourage the community to get vaccinated.

Adams, Arapahoe, Jefferson, Denver

\$75,000

Mile High Connects

A Fair Shot at Getting Your Shot: Addressing Vaccine Transportation Barriers

The cross-sector collaborative of Mile High Connects requests \$50,000 to increase the capacity of community navigators, promotoras, and community-serving organizations across the metro Denver region by addressing vaccine transportation barriers experienced by BBIPOC and low-income communities. We seek to do this by securing, coordinating, and facilitating the equitable distribution of a menu of transport options to meet specific residents needs to ensure they have access to vaccines.

Adams, Arapahoe, Denver

\$50,000

Moffat Consolidated School District No. 2

Together We Protect

Engage adolescents 12 and older and their parents/guardians through educational material and local access to vaccinations in our small rural community.

Saguache

\$42,500

Mongolian School of Colorado

COVID-19 Vaccine Equity for Mongolian Community in Colorado

Provide culturally relevant outreach, education, and connection to vaccination opportunities in Mongolian immigrant families, adults with limited English proficiency, and low-wage workers.

Arapahoe, Denver

\$14,000

Montbello Organizing Committee

Montbello COVID Vaccine Team - a Collective to Build Trust and Equity

Support the Montbello COVID Vaccine team to educate, register, schedule, and confirm appointments for residents in Montbello and Green Valley Ranch to receive vaccines through trusted partners.

Denver

\$39,020

Mosaic Unlimited

Together We Protect Vaccine Equity Fund

Mosaic Unlimited, in partnership with Dayton Street Opportunity Center and the DAWN Clinic, will provide community-based care, outreach and vaccination services for refugee, undocumented BIPOC residents and essential workers in the North Aurora and East Colfax Corridor.

Adams, Arapahoe, Denver

\$50,000

Mountain Family Health Centers

Mountain Family Health Centers/Valley Settlement/Family Resource Center Vaccine Equity Project

Partner with Valley Settlement and Family Resource Centers to increase COVID-19 vaccine access by conducting education and outreach for the target populations, providing individual family support to remove barriers to obtaining vaccinations, and expanding the capacity of Mountain Family's COVID-19 vaccine clinics.

Eagle, Garfield, Pitkin

\$50,000

Mountain Resource Center

Vaccination For Rural Populations, Latino Families and Veterans

Provide vaccination education and outreach, vaccination scheduling assistance, and a pop-up vaccination clinic targeting low-income and rural residents, Latino families, and veterans living in West Jefferson and Park Counties' mountain communities.

Jefferson, Park

\$15,000

Movimiento Poder

Our Barrio Gets Vaccinated

Our Barrio Gets Vaccinated is a linguistically and culturally appropriate community outreach and education program targeting Latinx immigrants, young people, and monolingual Spanish-speaking adults in areas of SW and East Denver with low vaccination rates. Using proven neighborhood canvassing and innovative social media approaches, the program will target over 40,000 households with trusted messages addressing community vaccine hesitancy and links to partner vaccination sites.

Denver

\$75,000

Muslim Youth for Positive Impact

Muslim Youth for Positive Impact COVID Vaccine Education Initiative

Lead a statewide COVID-19 Vaccine Education Initiative to educate and engage the statewide Muslim community and collaborate with the Colorado Imam Council, mosques and Muslim community groups to host culturally competent vaccine awareness events and pop-up vaccine clinics.

\$74,980

New Life Christian Center

People Helping People

Provide outreach, awareness, education and access to the vaccine through pop-up clinics to provide access for the COVID-19 vaccine to Black, Indigenous and People of Color (BIPOC), Immigrants (including undocumented immigrants, refugees or asylees) and people with disabilities that reside in Montbello/Green Valley community.

Denver

\$24,000

North Colorado Health Alliance

Taking Charge of Our Future

Offer youth and family outreach events, education, and a youth-focused social media campaign in Weld and Larimer Counties, focusing on adolescents ages 12-15 from historically underserved communities of color to address vaccine hesitancy, provide culturally responsive outreach and education, and eliminate barriers for vaccinations.

Weld, Larimer

\$50,000

One Colorado Education Fund

Reducing Vaccine Hesitancy and Increasing Access through a Statewide Public Education Initiative

One Colorado Education Fund (OCEF) requests \$50,000 to conduct statewide outreach and public education around vaccine access and trust. The goal is to ultimately increase rates of vaccinations among LGBTQ Coloradans, people of color, and rural Coloradans, populations that are disproportionately impacted by COVID-19. OCEF is a recognized community leader in the LGBTQ movement and partners with local organizations to support its efforts in increasing vaccinations.

\$50,000

Otero County Health Department

Grow, Cultivate, Produce A Vaccinated Community

Provide vaccination education, trust-building outreach, transportation assistance and pop-up vaccination clinics targeting low socioeconomic status residents such as Spanish-speaking populations, migrant workers, farmers and those less likely to access the vaccine because of historical mistrust of government and the spread of misinformation in Otero and Crowley Counties.

Otero, Crowley

\$62,500

Out Boulder County

Vaccinating LGBTQ Community Members

LGBTQ people have higher hesitancy/reluctance to COVID-19 vaccines than the cisgender and straight community. When looking at the intersection of race/sexuality/gender the hesitancy rates are higher. Since LGBTQ people are not included in the State's Equity rollout we must address this issue ourselves if our larger community is to reach herd immunity. Working together on this project is Out Boulder County, Southern Colorado Equality Alliance, Castle Rock Pride and Inside Out Services.

Pueblo, El Paso, Douglas, Boulder

\$90,000

Out Boulder County

Youth Vaccine Initiative for LGBTQ and Latinx Youth

Support youth-led vaccine outreach in a partnership between Out Boulder County and El Centro AMISTAD where the youth will develop a survey, market/advertise the survey to the community, analyze the data and create a youth led vaccine clinic and other education and outreach activities.

Weld, Broomfield, Boulder

\$50,000

Pikes Peak Library District Foundation

Pikes Peak Library District Vaccine Equity Clinics

Working closely with the State of Colorado and El Paso County Public Health and other community partners to vaccinate as many people as possible, PPLD plans to operate a minimum of ten clinics at five locations throughout El Paso County serving communities identified as hard to reach. PPLD is well positioned due to its geographic reach and trusted place in the community to boost El Paso County's lagging vaccination rates.

El Paso

\$34,800

RISE Colorado

Promoting Vaccine Education and Access in Aurora

Build on trusted relationships with Black, Latinx, Southeast Asian, immigrant, and refugee families to educate on the importance of the COVID-19 vaccine and reduce barriers to vaccine access within Northwest Aurora.

Adams, Arapahoe

\$50,000

River Valley Family Health Center

Reducing barriers to COVID-19 vaccine access for vulnerable populations in Montrose and Delta counties

Increase access to the COVID-19 vaccine for Migrant/Seasonal Agricultural Workers, low income and Hispanic/Latino populations in Montrose and Delta counties by offering a series of vaccine clinics at local farms and worker dormitories, River Valley's Delta and Olathe locations, and the Montrose fairgrounds.

Delta, Montrose

\$40,000

Rocky Mountain Public Media

Combatting Vaccine Hesitancy through Public Media

In a climate overcome by misinformation within media and institutions, Rocky Mountain Public Media is working to leverage our reputation as the most trusted news and public affairs network in the state to produce community-responsive information about the COVID-19 vaccine. We strive to encourage critical thinking and discussions about the vaccine, especially in BIPOC (Black, Indigenous, People of Color) communities that have been disproportionately impacted by the pandemic.

\$10,000

Rocky Mountain Welcome Center

Together We Protect Immigrants and Refugees

Engage hard-to-reach immigrant and refugee communities with verbal, video and written information about the COVID-19 vaccines using a variety of outreach tools and methods in 6 languages: Burmese Karen, Bhutanese, Dari/Farsi, Somali, Oromo and Spanish.

Adams, Arapahoe, Denver, Morgan

\$79,174

Rocky Mountain Welcome Center

Refugee and Immigrant Youth Outreach

Engage community teams of first-generation immigrant youth from the Ethiopian Oromo, Mexican, Somali and Nepali communities to develop and deliver to friends and family unique and successful messaging that results in combatting rumor and misinformation about the vaccine.

Adams, Arapahoe, Denver

\$48,224

San Juan Basin Public Health

Youth Vaccine Equity Project in Southwest Colorado

Continue the development of a local vaccine equity eco-system that addresses the needs of low income, minority, disabled and other underserved youth and caregivers in both Archuleta and La Plata counties in rural southwest Colorado.

Archuleta, La Plata

\$45,969

San Miguel County

Spanish and Chuj Vaccine Outreach: San Miguel County

Enhance local partnerships for outreach and education to increase understanding of the COVID-19 vaccines and minimize barriers to accessing the vaccines in the Latinx community in San Miguel County.

San Miguel

\$68,370

Scholars Unlimited

Don't Wait Vaccinate!

Continue to build on our family engagement activities through our after school and summer programs with the purpose to provide education, offer incentives, and connect communities to COVID vaccines.

The Foundation for Sustainable Urban Communities

be well Vaccinates

The be well Health and Wellness Initiative proposes the three following strategies to increase vaccine literacy and equitable access in Northeast Denver and Northwest Aurora communities:

- Launch a be well Vaccine Campaign
- Host a be well Vaccine Tour
- Mobilize be well Block Captains to provide a trusted hand for follow-up

Together, these strategies will ensure that BIPOC have the tools and resources necessary to make an informed decision about the COVID 19 while addressing health equity overall.
